MONEY DECISIONS

—(Loan Analysis)—

Presents 7 Loan Concepts To Help Your Borrowing Decisions

Borrowing money can sometimes be confusing. How much should you borrow? What will your payment be at a prescribed interest rate? Let **Money Decisions: Loan Analysis** help clear up the confusion. Learn how to make the right decisions and plan for future expenditures.

This easy-to-use, menu-driven program requires no programming knowledge to operate. Financial terminology is defined and clarified. Examples are presented in detail.

Select a function and enter in your data by responding to easy-to-read prompts. Your answer is quickly calculated and displayed. Each calculation can be printed.

Get the most out of seven loan analysis concepts.

Items are easy to change. After changes, calculations can be run again. Compare results and make your financial decision.

Required Hardware: Commodore 16 or Plus/4 computer, Commodore Datassette™, Commodore printer optional.
